

## ADR Regulation for Design & Construction of Carbon Dioxide Transport Tanker

We manufacture co2 tanker of various capacities ranging from 500 Liters to 75000 Liters as per ADR regulations for transport of Dangerous goods . The unit comes with all safety features as per norms. The tanks are provided with unloading pumps , all accessories like safety fittings, valves, pipelines, , as per requirement.

We fully comply with ADR Regulations and provide competitive price for Carbon Dioxide Transport Tanker.

“Our company adopts advanced Finite element stress analysis Technology to analyze the stress Of the tank in different working Conditions to make the tanker Safe and light weighted.”

### Our Priorities to Sustainability:

- Safety
- Environmental Efficiency
- Responsible Business.
